

Introduction	<ul style="list-style-type: none"><li>● <b>Title:</b> Creating an app for RoomSearch which is basically a room rentals.</li><li>● <b>Author:</b> Vamsi Reddy, UX researcher at AppDesign. Email : vam123098vprs@gmail.com</li><li>● <b>Stakeholders:</b> RoomSearch customers, CEO and CFO</li><li>● <b>Date:</b> 12/12/2022</li><li>● <b>Project background:</b> Creating a RoomSearch app to rent a room in our online system. We noticed that our competitors offer dedicated mobile apps for their customers to order through, and they have been very successful. We want to create a product that can compete in the market, improve sales, and increase customer satisfaction.</li><li>● <b>Research goals:</b> we would like to figure out what distinct difficulties users encounter when they try to complete the core tasks of the Zia's Pizza app: [payment gateway], finding a room in our app and in-app navigation.</li></ul>
Research questions	<ul style="list-style-type: none"><li>● How long does it take for a user to select and rent a room in the app?</li><li>● Are users able to successfully rent the flats/appartments that they want?</li><li>● Is the payment gateway easy for the customer?</li></ul>
Key Performance Indicators (KPIs)	<ul style="list-style-type: none"><li>● Time on task: how much time users spend renting a room</li><li>● Conversion rates: how many rooms customers are renting as a day gets to over</li><li>● User error rates: how often users get stuck trying to rent a room they want</li><li>● System Usability Scale: a question to evaluate a customer feedback</li></ul>
Methodology	<ul style="list-style-type: none"><li>● Unmoderated usability study</li><li>● Location: Kadapa, countryside</li><li>● Date: sessions will take place between jan10 and jan19</li><li>● First 7 participants will rent a room through the app. Each participant will then complete a questionnaire on their experience.</li><li>● Each session will last for 10-12 minutes</li></ul>
Participants	<ul style="list-style-type: none"><li>● Participants are anyone who rents out at least once in a month or two.</li><li>● Participants need to reside in metropolitan and suburban areas.</li><li>● Participants should be 18+ years.</li><li>● Participants should include a fairly even distribution of genders across the spectrum and people with different abilities including:<ul style="list-style-type: none"><li>○ 1 user of assistive technologies</li></ul></li></ul>

## Script

- 1 user who isn't fluent in English
- Incentive: Rs2500 electronic gift card from RoomSearch upon completion of the questionnaire.
- Prompt 1: From the Login/signin page, login or signin your account using google or mail
  - Prompt 1 Follow-Up: How easy or difficult was it to login or signin? Is there anything you would change about the process?
- Prompt 2: what we are looking for rooms or roommate
  - Prompt 2 Follow-Up: How easy or difficult was this task to complete? Is there anything you would change about the process of looking for room or roommate?
- Prompt 3: listing of rooms and roommate
  - Prompt 3 Follow-Up: How easy or difficult was the listing process? Is there anything you would change?
- Prompt 4: Confirm your book and complete the checkout process
  - Prompt 4 Follow-Up: How easy or difficult was it to book your order? Is there anything you would change?
- Have the participant complete the System Usability Scale. Participants are asked to score the following 10 items with one of five responses that range from Strongly Agree to Strongly disagree:
  - I think that I would use this app frequently.
  - I found the app unnecessarily complex.
  - I thought the app was easy to use.
  - I think that I would need the support of a technical person to be able to use this app.
  - I found the various functions in this app were well integrated.
  - I thought there was too much inconsistency in this app.
  - I would imagine that most people would learn to use this app very quickly.
  - I found the app very cumbersome to use.
  - I felt very confident using the app.
  - I needed to learn a lot of things before I could get going with this app.
  - I found the payment system frustrating.
  - I found the ordering process cumbersome.
